

BD - 05T06 Series - Micro Diaphragm Pump

Model:BD-05T0610AC

Performance Data	
Model	BD-05T0610AC
Voltage Range	200-220V
Maximum Flow	7.5L/min(float flowmeter) 6.2L/min(electronic flowmeter)
Maximum Negative Pressure	≥-85KPa
Max Positive Pressure:	2.5Bar
Motor Data	
Motor Type	220vac/50Hz Shaded pole motor
Max power	50W
Waterproof Lever	IP00
Physical Properties	
Storage temperature	-40℃~60℃
Operating environment	0℃~45℃
Material	
Head of pump	PPS
Diaphragm/Valve	EPDM(Customized FKM/PTFE)
Pump body	Aluminum alloy electrophoresis
Dimension	130*62*90mm
Weight	1.26kg

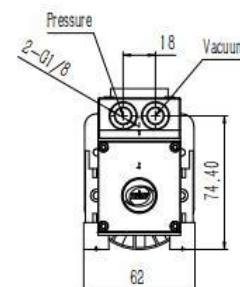

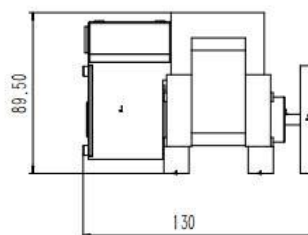

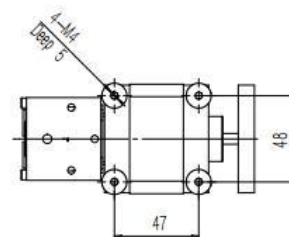

Features

Optimized pump body to by dynamic balance to provide a large flow rate while maintaining a relatively low vibration.

- Small volume and low noise
- Long life and high-quality performance
- High performance hood pole motor, imported ball bearing to ensure >8000 hours lifetime
- Provide high quality EPDM material
- Professional seal design ensures low leakage rate.
